"Get Some Business Traction"

Overview

Laser Projection Walls

Northern Lights is a professional laser multimedia studio located in Sault Ste Marie, Ontario, Canada. Northern Light's laser multimedia studio personnel are dynamic, innovative, creative, driven, entertaining, resourceful, passionate leaders who specialize in producing and developing professional static or dynamic custom laser projected walls, murals for marketing/digital signage for any organization (indoors/outdoors). In a competitive environment it is essential to stimulate the viewer with impact and entertainment. Advertising media in the outdoor arena has been limited in format, Our idea is to create a product that would improve the existing way advertising is presented. Laser light advertising is a superb, attractive, high impact, high visibility marketing tool that captures your emotions when advertising at fundraisers, trade shows/exhibitions, promoting tourism, corporate branding, acknowledging sponsors, sport teams and suppliers. We aim to produce **"scenes to be seen"**. **Advertising is art and visibility equals profits.** We have all heard the **"Out of Sight, Out of Mind"** idiom which suggests a lack of visibility will be forgotten. Laser interactive media reaches out and captures your attention. Its hypnotic effect will draw you in. Northern Lights is able to reproduce and project illustrations using line work called vector graphics. Laser interactive media can create corporate logos, animate vector graphics, text messaging with special laser effects in full color, scalable and projected against any facade. Northern Lights can add or combine special effects during live stage shows and highlight nightly projected laser animated advertising / text messaging offering a competitive edge on any surface. Let us promote your branding slogans / taglines using special effects to highlight and feature your corporate messages for public viewing.

Northern Lights Laser Multimedia Studio is excited to present our laser interactive media to invaluable corporate sponsors and community partners. Our cutting edge laser technology will draw major attention to drive your brand and provide relevant product recognition. Laser projection has a special unique "X-Factor" quality. Our community laser projected billboards generate excellent public exposure and will acknowledge your generosity as a community builder. Your nightly laser projected marketing content will be saved as a cycled cue lighting up the interior pavilion with coloured logos, text messaging, special FX (effects), animated advertising graphics and entertainment.

Nightly Projection Times

Five Days/Week - 9:00 p.m. - 11:00 p.m.

Michel's Profile

Michel is an accomplished personable, approachable, reliable entrepreneur with integrity, focused, resourceful, driven, perseverent, humble, fiscally responsible, methodical, organized and efficient.

Michel is a socio-economic community builder committed to social growth and social independence through personal empowerment. Northern Lights advocates breaking down employment barriers and eliminating social isolation. He is a dynamic passionate innovative leader who insists on excellence in laser multimedia entertainment. Northern Lights is a reflection of his social innovation, mentoring, persistence, dedication, expectations, collaboration, encouragement and support. The "Northern Lights Team" is empowered, enthusiastic, accountable and motivated to develop a unique enjoyable leisure laser multimedia entertainment experience for all ages.

Public safety is a Northern Lights priority. Our operations ensure safety zones and safety practices with adequate safety signage during public shows.

Important Safety Note - "Respect The Beam" - It is irresponsible and dangerous to direct any laser light at aircraft, vehicles and people. Severe injuries are possible from laser misuse and can be punishable by law.

2025 Brand Sponsorship Program

The “Northern Lights” team is always looking to align itself with companies that search for successful marketing solutions for their brand. Our cutting edge laser projected technology promises to deliver brand awareness excellence. Our mobile laser projected advertising has a special unique method of customizing and blending coloured vector logos, text messages with special effects. Laser projection has a special unique “X-Factor” quality. Laser projected advertising can be scaled to specific projected sizes. Your private sponsorship support will ensure a first class laser multimedia operation for years to come. Future xpansion plans will be considered to equip additional laser requirements. Laser projected advertising is engaging and captivating. Laser projected advertising can be animated with laser vector graphics and special effects. Audiences appreciate and enjoy laser multimedia possibilities. Laser projected advertising captures audiences and draws them in. Laser projected stimulus is entertaining and memorable.

The sponsors grant Northern Lights Laser Multimedia Studio a limited license and right to make use of sponsor’s trademarks, logos, company name, and company description for the purpose of promotional material and to market or advertise. The sponsors are responsible for providing such materials in a medium that Northern Lights Laser Multimedia studio is capable of using. Northern Lights Laser Multimedia Studio shall use the materials provided by sponsors in connection with the sponsorship program and shall not be used past the sponsorship program date except with express permission from the sponsors. Sponsor materials may be used to generate interest in the sponsorship program, garner goodwill, create further sponsorship opportunities, pursue and secure additional funding or funding opportunities, or further advertise for the sponsorship program. Our “Sponsorship Tiers” provide marketing opportunities to suit your advertising budgets.

Become A Sponsor, See The Difference
